

Falcon 50 Pilot in Command (PIC) Job Description

Position: Falcon 50 Pilot in Command (PIC)

Location: Floating Fleet

Company: Haven Aero

Reports To: Chief Pilot / Director of Operations

Employment Type: Full-Time

Job Summary

The Falcon 50 Pilot in Command (PIC) is responsible for the safe, efficient, and professional operation of the aircraft in compliance with FAA regulations, company policies, and industry standards. This role requires strong leadership, decision-making, and communication skills to ensure a seamless flight experience for passengers and crew.

Key Responsibilities

Flight Operations & Safety

- Ensure safe and efficient flight operations following FAA Part 91/135 regulations and company SOPs.
- Conduct pre-flight, en-route, and post-flight inspections to verify aircraft airworthiness.
- Perform flight planning, including route selection, fuel calculations, and weight & balance checks.
- Maintain a thorough knowledge of aircraft systems, limitations, and emergency procedures.
- Monitor and assess weather conditions to adjust flight plans as necessary.

Crew & Passenger Coordination

- Lead and coordinate with the Second-in-Command (SIC) and flight crew to ensure smooth operations.

- Ensure passenger comfort and safety, including briefings and addressing any in-flight concerns.
- Maintain clear communication with ATC, ground crews, and company dispatchers.

Regulatory Compliance & Documentation

- Maintain up-to-date flight logs, maintenance records, and duty/rest compliance.
- Ensure all aircraft documents (e.g., flight manuals, MEL, checklists) are current and onboard.
- Stay informed about aviation regulations, airspace restrictions, and operational changes.

Aircraft Management & Maintenance Oversight

- Report any aircraft discrepancies or maintenance issues to the Chief Pilot/Maintenance team.
- Assist in coordinating scheduled and unscheduled maintenance to ensure aircraft availability.

Professionalism & Continuous Learning

- Attend recurrent training and simulator sessions to maintain Falcon 50 type rating and proficiency.
- Represent the company with professionalism and exceptional customer service.

Qualifications & Requirements

- FAA ATP Certificate with Falcon 50 Type Rating (Preferred)
- 3,000+ Total Flight Hours (including minimum PIC hours in jet aircraft)
- 1,500+ PIC Hours in Multi-Engine Jet Aircraft
- Strong knowledge of FAA Part 91/135 operations
- Excellent CRM (Crew Resource Management) & Leadership Skills
- Ability to travel frequently, including overnight and international trips
- No significant FAA violations, accidents, or incidents

Preferred Qualifications

- Experience operating Falcon 50 under Part 135 charter operations
- International flight experience, including RVSM and Oceanic procedures
- Strong background in fuel efficiency, weight & balance, and performance planning
- Prior corporate or VIP aviation experience

Compensation & Benefits

- \$150,000 Yearly Salary
- Days of flight outside of normally scheduled days pay \$950.00 per day
- Medical, dental, and vision insurance
- Flight training & recurrent simulator expenses covered
- Paid time off & flexible scheduling 8 on 7 off
- Travel benefits & per diem
